

Options

“AJB” - Angle Jamb Brackets

Available for most surface mount models – converts standard installation to pull side mount or push side flush mount mounting (see page B-3 for details).

They are also available separately, as a part.

- 44443 - 3300A & 4400 Series
- 70377 - 7000 Series
- 90541 - 8000, 9000 & 9000A Series

“CL” - For Use with Cam Lift Hinges

Custom unit for use with cam lift hinges (½” maximum door lift)

“HC” - Hold Closed

Special mechanism is integrated into the overhead stop holding the door closed at 0° and essentially doubling as a roller latch (available for stop function only). Hold-closed mechanism can be disengaged.

“LL” - Lead Lined

Lead is provided to cover where mounting holes will pierce lead on lead-lined doors.

“LS” - Less Spring

Typically used with a single point electronic door closer, overhead stop is supplied without the shock absorbing spring (stop function only).

“N” - All Stainless Steel (Non-Ferrous) Components

Designed for use in wet environments - all stainless steel or non-ferrous components are provided with the unit, including all internal components and screws.

“SEC” - Security Fasteners

Security fasteners are provided in lieu of standard fasteners for all exposed mounting holes – specify door and frame material when ordering.

“SNB” - Sex Bolts

Sex bolt fasteners are added to 3500 series surface mount model screw pack, as they are not supplied standard.

“T” - Threaded Pivot Screw and Nylon Washer in Lieu of Jamb Bracket

Typically used when space is limited in the frame head for installation or when installing a concealed model in an existing frame with minimal field prep.

“THICK” - Door Thickness other than 1-¾”

Custom fasteners will be supplied to accommodate various door thicknesses other than 1-¾” – specify door thickness.

“SPECIAL” - Special Layout

ABH can provide custom units for countless non-standard applications. See page B-6 for order form or contact factory for assistance.
