

Moveable Electrical Access Gear Hinge Section

Standard Options

- The door and frame leafs are cut to allow access to wires for concealed thru-wires, contacts or monitoring switches without taking hinge off the door and frame
- Used with (2) 18ga., (4) or (8) 28ga. wire, and/or contacts and switches
- Available for all full length, full concealed hinges (except A130 and A410)
- Add suffix M
