Electromagnetic Door Holders

Wall Mount

2100 – Recessed Wall Mount

Standard Features
- 2-5/8” total projection from wall to face of door (3-3/8” if using complimentary 1” extension)
- Tri-voltage units for easy stocking and installation 12V DC, 24V AC/DC or 120V AC
- Provided with one complimentary 1” extension – No charge
- Optional extension rods fill the gap between the magnet and door armature with no special adapter piece required (see page D-8)
- 35 lb. holding force
- All metal components – No plastic parts
- UL/ULC listed for smoke barrier or labeled fire doors
- Listed by the California State Fire Marshall
- Outlet box required (not provided)
- Armature features two pivot points which each have 360° mobility to help door alignment and reduce installation time
- Positive release button alleviates residual magnetism
- Average weight per unit = 2.5 lbs.

2300 – Surface Wall Mount

Standard Features
- 4-5/8” total projection from wall to face of door (5-1/8” if using complimentary 1” extension)
- Tri-voltage units for easy stocking and installation 12V DC, 24V AC/DC or 120V AC
- Provided with one complimentary 1” extension – No charge
- Optional extension rods fill the gap between the magnet and door armature with no special adapter piece required (see page D-8)
- 35 lb. holding force
- All metal components – No plastic parts
- UL/ULC listed for smoke barrier or labeled fire doors
- Listed by the California State Fire Marshall
- Armature features two pivot points which each have 360° mobility to help door alignment and reduce installation time
- Positive release button alleviates residual magnetism
- Average weight per unit = 3 lbs.
