

OVERHEAD STOPS ONLY LESS SPRING

THESE STOP-ONLY OVERHEADS ARE TYPICALLY USED WITH SINGLE POINT ELECTRIC DOOR CLOSERS AND ARE PROVIDED WITHOUT THE SHOCK-ABSORBING SPRING. AS AN AUXILIARY STOP, USE OF THESE MODELS MAY INCREASE THE LIFE OF THE CLOSER.

PLEASE ORDER UNITS "LESS SPRING" (SUFFIX LS).

Note: Care should be taken when the less spring model is used in other applications. Eliminating the shock-absorbing spring may put additional stress on the frame and door.
