

## (Easy Access) Concealed Electrical Continuous Geared Hinge

Electrified door hinges are known to fail over time, and when they do, accessing their wires for repair can be time-consuming.

The ABH "EA" Easy Access Concealed Electrical Hinge is a new way of transferring power through a hinge allowing easy access to wires, along with providing the security needed to protect the opening from tampering.

Front View

#6 SPANNER FLAT  
HEAD SECURITY  
SCREW PROVIDED  
STANDARD (4 PLACES)

Back View

(12) 22 AWG Ribbon  
Wires - STANDARD

### (12) 22 AWG Super-Flex Ribbon Wires - Standard

The flexibility protects the wires and maximizes their longevity.

### Easy Access to Wires

Tamper-Resistant Access Panels on the face of each hinge leaf allows for quick access to wires without having to remove the hinge. The need for the traditional "M" Moveable section is eliminated.

### Non-Handed

EA centered on the hinge height for easy installation.

### Availability

Available on all Full Concealed Models.
