AHT

ABH Advanced Hospital Tips (AHT) are designed for use in behavioral health facilities, hospitals, correctional facilities or any institution where there are ligature risks. While most hospital tips are designed to work only in the closed position, the AHT works whether the hinge is open or closed. Each AHT has been designed to work with the specific hinge needed for the door and frame application at hand.

Closed Position

Open Position

Other Hinge Options Available

- No ligature points in the open and closed positions
- Full Mortise Hinges - (3) types
- Full Mortise Electrified Hinges (EA Prep)
- Full Surface Hinges - (3) types
- Stainless Steel Pin & Barrel - Welded Hospital Tip
- PATENTS PENDING
